JETWEIGH5™ AIRCRAFT WEIGHING SYSTEMS

The Revere JetWeigh-5™ System integrates high-accuracy hermetically sealed Load Cells with the advanced state-of-the-art G4 digital weighing processor, resulting in an accurate, highly reliable, robust, and easy-to-use system for weighing aircraft

Synchronized sampling of all weight channels minimizes the effect of vibration, oscillations and wind.

User friendly, color graphic display with touch screen

Center of gravity calculation

Latitude and altitude gravity correction
